**REF: PR Docket 92-235**

**Dear Ms. Searcy:**

**This letter is being submitted to you and the Federal Communications Commission in opposition of PR Docket 92-235. Harvey County has established a very effective communications systems which provides Police, Fire and EMS services to some 37,000**

I ask that you reconsider the proposed docket 92-235 and exclude the many areas of the U.S. which are not faced with a critical problem of radio congestion. Should PR Docket 92-235 be passed, I ask that federal financial assistance be provided to help communities and rural areas replace there communication equipment in order to meet the required standards of PR Docket 92-235. I would also like for the commission to consider extending the deadline in order to lessen the great financial impact this proposal will have.

Should your decision stand, I would like to see your lines of communications improved so that we are assured of an adequate planning period.

In closing, I would like to thank you for your time and consideration in this matter.

Sincerely yours,

Ron C. Hoffman,  
Director of Communications
